Paul,

I have been contracted with MVS to produce a geotechnical report for the permit. I have run into some delays and will need to extend the report submittal to June 12, 2015. I have already spoken with Leslie on the matter and she indicated I needed to contact you for the extension. Thank you.

Alan O. Taylor, P.E.

Thank you for making the request, and we will allow the additional time. I will print this message for our file and update our database.
